### **DETAILED ACTION**

1. In an amendment filed 6/09/06 with the new application, applicant has made a preliminary amendment to cancel claims 1-13 and add claims 14-57.
2. There was a restriction requirement filed 7/20/09 which were directed to the original set of claims. This restriction requirement is withdrawn in light of the new restriction requirement related to the newest amended set of claims.

### ***Election/Restrictions***

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 14-49, drawn to a live combat game.

Group II, claim(s) 50-57, drawn to a combat board game.

4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The board game does not use typical live game items such as human players, weapons, referees, etc. that are associated with live games and the live game doesn't use items that are normally associated with board games such as game pieces, rolling dice, etc.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
